

Whether you are an individual faced with an accumulation of credit card debt or a sole trader faced with business related debt problems, Bond Partners has the experience, understanding and discretion needed to help you resolve your situation.

The earlier you contact us to make us aware of your situation the easier it will be for our expert insolvency partners to assess and understand your personal financial circumstances, and to help you organise and manage the repayment of debt.

Though this can involve the negotiation of informal agreements with creditors, in many cases an Individual Voluntary Arrangement (IVA), which places a freeze on interest and penalties throughout the period of the arrangement, are made to schedule a realistic repayment process, which will prove the best solution for an individual and his creditors.

Bond Partners' Practitioners, who have over 25 years experience, as Insolvency Practitioners are licensed to act as Nominee in seeking IVA protection for clients in this situation and have helped a considerable number of individuals and businesses overcome temporary problems and get their finances on the road to recovery.
